SOFT SKILLS

- Critical Thinking
- Problem Solving
- Teamwork
- Active Listening
- Communication

COURSES

- Front-End Web
Development With
React Js
- From Coderstrust
Bangladesh
- Jan, 2022

MD. YEASIN ARAFATH

FRONT-END WEB DEVELOPER

ABOUT ME

I'm a react web developer with 6+ months of experience in web development. I love creating responsive websites using ReactJS, JavaScript, HTML5, CSS3, Bootstrap5, Tailwind css and Material UI. I enjoy converting UI designs into real websites. I've done multiple small projects to learn basics and now doing more complex projects.

SKILLS

Programming Language

- HTML 5
- CSS 3
- JAVASCRIPT

Frameworks

- Bootstrap 5
- Tailwind CSS
- React-JS
- Material UI

TOOLS

- VS Code
- NPM
- GIT
- GITHUB
- NETLIFY
- FIGMA
- API

Authentication

- FIREBASE

EDUCATION

H.S.C. from Feni National Collage

Group: Science
GPA: 4.08
Year: 2020

PROJECTS

REST Countires API

< RESTful API />< Bootstrap v5 />< React.js />

- Responsive website which integrates with the REST Countries API to pull country data. You can view the list of all countries and find one via search or by filtering regions. Individual country page, enables you to see further details about the country like border countries.
- [Live Link](#) [Source Code](#)

React-JS-Parlour-Animation-Website-with-Framer-Motion

< React.js />< CSS3 />< HTML5 />< Framer Motion />

- Full responsive Parlour Website. It's a Figma design conversion to react. Goal was to get it looking as close to the design as possible.
- [Live Link](#) [Source Code](#)

JavaScript Todo App

< JavaScript />< HTML5 />< CSS3 />

- Responsive JS todo app . Enables users to add, delete and clear day-to-day tasks. It has user-friendly interface and navigation.
- [Live Link](#) [Source Code](#)

Food api fetch & display

< javascript />< HTML5 />< CSS3 />

- This challenge tested my skills to fetch an API, a common pattern on larger sites. It also has some nice basic layout challenge.
